

SIOPA Mentoring Program 2021

Would you like to build your professional networks?

Are you looking to grow your career? Do you need an insider's perspective on career mapping or how to set strategic career goals? Would you like to receive individual support, advice and guidance from an industry leader who lives and breathes the profession like you?

Following the success of the inaugural program in 2020, we are pleased to invite candidates to apply for the second SIOPA Mentoring Program. The SIOPA Mentoring Program is a nationwide initiative for early career professionals that aims to support participants with career guidance and direction by sharing mentor and mentee experiences, developing career goals, and forging exceptional mentoring relationships.

Successful applicants must attend a two-hour training session and launch event on 16th March (either online or preferably in person) in Perth. Mentees are encouraged to conduct 5-7 sessions with their mentor throughout the program.

The program follows a structured, sustainable mentoring process that includes a comprehensive matching framework, training and support conducted by Organisational Psychologists.

Only limited places available so be quick!

Who is SIOPA?

SIOPA is an independent and incorporated association with a purpose to create growth, supervision and professional development opportunities for Organisational Psychologists and related disciplines in Australia.
